Note

The Statistical Institute of Serbia has informed us that they do not have more information on migration than that provided in this framework. Some residents of Serbia who are now considered as foreigners or born abroad nowadays, were born in former Yugoslavia (composed of the independent republics of Bosnia and Herzegovina, Croatia, Slovenia, Macedonia, Montenegro and Serbia). The reading of the corresponding values should be made considering this geopolitical change to the detriment of immigration.

The data from 2000, 2005, 2010 and 2015 were revised by the UN and amended by OEm on 23/11/2022.
