

Portuguese inflows into Belgium increase again

2024-11-26

According to OECD data, 3,857 Portuguese entered Belgium in 2022. That international organisation accounted for a total of 192,002 entries of foreigners into Belgian territory, with the Portuguese accounting for 2% of that total. +

After 2020 saw a decrease in the number of Portuguese entering Belgian territory, largely explained by the effects of the pandemic on restricting mobility. In 2021 and 2022 there were increases, and in 2022 the highest number of entries since 2013 was reached. Between 2000 and 2022, the number of Portuguese entering Belgian territory was lowest in 2000 (1,324 entries) and highest in 2013 (4,332 entries).
